EduSphere USA

Vendor Packet Checklist

Documents schools typically need for procurement — all available from EduSphere USA.

Standard procurement documents

- Sample quote and sample invoice (this packet) — format reference for your purchasing office.
- W-9 and vendor registration information — provided with every quote.
- Student Data Protection summary — plain-language overview of data collection, storage, and retention (also at /student-data-protection).
- Accessibility statement — WCAG 2.1 AA conformance approach for student-facing software (also at /accessibility).
- Security overview — role-based access, audit logging, and payment handling (also at /privacy).
- Sample student readiness report and sample cohort readiness report — reporting format evidence.
- Implementation plan — standard 4-week onboarding timeline.
- Credential alignment notes — per-track competency mapping published on each field page.

How purchasing works

Step	What happens
1. Demo or invoice request	School requests a demo or submits an invoice / PO request from checkout
2. Quote issued	Formal quote with W-9 and vendor packet, valid 90 days
3. PO or payment	School issues a purchase order or pays the invoice
4. Activation	Organization activated; implementation week 1 begins

Questions from purchasing offices: licensing@edusphereusa.com (sample address). We support district vendor registration, grant-funded purchases, and multi-year quotes on request.
