Student Readiness Report — Sample

Generated for evaluation purposes. All names, scores, and schools on this page are fictional sample data.

Student summary

Student	Program track	Cohort	Report date	Overall readiness	Status
Sample Student (S-1042)	Medical Assistant (Clinical & Administrative)	Spring Cohort — Sample High School	October 13, 2026	74 / 100	On Track

Readiness score components

Weights follow the standard EduSphere readiness model; schools can adjust them with their implementation specialist.

Component	Weight	Student result	Weighted contribution
Practice question accuracy	40%	78% correct across 412 items	31.2
Diagnostic improvement	25%	52% → 81% (+29 pts)	20.3
Module completion	20%	14 of 16 modules complete	17.5
Final practice exam	15%	71% on timed full-length exam	10.7
Overall readiness score	100%		**74 / 100**

Competency domain mastery

Competency domain	Mastery	Trend	Flag
Clinical patient care & vitals	86%	Improving	—
Medical terminology & anatomy	82%	Stable	—
Administrative & front-office procedures	79%	Improving	—
Pharmacology basics & medication safety	71%	Improving	Watch
Infection control & safety compliance	68%	Flat	Watch
EKG, lab & diagnostic procedures	61%	Declining	Priority

Recommended next steps

1. Assign remediation module "EKG & Diagnostic Procedures — Lab Workflow" (est. 45 min) and its 25-item practice set.
2. Schedule one instructor check-in this week on infection-control scenarios; re-take the domain quiz after review.
3. Attempt the second timed full-length practice exam after both items above are complete.
